Specifications & Features:

Manufactured gasketed enclosures, which are totally dust and moisture resistant. The enclosure is constructed of a fiberglass upper body and an acrylic diffuser, crepe pattern diffuser securely positioned in a permanent poured in place sealing gasket. The diffuser and upper components are locked into place by retaining latches, assuring a secure, tight seal. Ideal for Food Processing, Kitchens, Parking Garages, Car Washes Schools, Government Facilities, Industrial Facilities, and Public Areas.

- Structurally rigid fiberglass body– fiberglass is reinforced polyester and self-extinguishing
- The gasketed inverted U-slot provides a positive continuous seal between body and diffuser
- Brass fixture Mounting stud– The fixture studs are integrally molded into the body to facilitate lighting and installation
- High Impact Acrylic Diffuser– Internal crepe pattern allows a smooth exterior surface for ease of cleaning
- Diffuser– The diffuser flange fits snugly into the gasketed retention slot forming a continuous seal
- Standard with mounting brackets
